MISSION STATEMENT

To Make a Significant Difference in the Advancement of God's Kingdom
 Through Effective, Christ-Centered, Leadership.

MINISTRY EXPERIENCE

PRECIOUS CLAY MINISTRIES
 Author-Speaker-Consulting Minister
 Founder and President
 (Part time 1998 till November 2010- Full time to present)
 (Please visit website for extensive information)

TEACHING:

NEW YORK SCHOOL OF THE BIBLE (Manhattan)
 Adjunct Professor/Faculty Member

PILLAR COLLEGE ((formerly Somerset Christian College)
 Adjunct Professor/Faculty Member

PASTORAL:

LICENSED AND ORDAINED MINISTER OF THE GOSPEL

GREEN POND BIBLE CHAPEL
 Executive Pastor February 2008-November 2010

Primary responsibility included focusing on issues relating to vision and mission, leadership development, general strategy and oversight. This included facilitating, developing and implementing the vision and long range planning

- Met regularly with Sr. Pastor and Elder chairman for reporting, problem solving and establishing direction
- Provided support, guidance, mentoring, leadership and direction to the church ministries and leaders
- Speak at or lead meetings in various capacities as needed
- Provided counsel, oversight and direction as required for church operations, administration, finances as well as site master planning, construction and maintenance of church facilities
- Preached and/or taught during the year as desired and mutually agreed
- General pastoral responsibilities secondarily include visitation as well as conducting weddings, funerals and church ordinances as required
- This position offered flexibility and freedom outside GPBC to speak, minister, consult, work, representing 'Precious Clay Ministries'.

GRACE FELLOWSHIP CHURCH, West Milford, NJ

Member-Pastor-Elder (until January 2008)

Secular Resume

MARK J. GRAWEHR, P. E.

EXECUTIVE

Sr. Vice President: EMCOR Services Arlington Virginia

Owner/President/CEO: Engineered Facilities Systems and Services Co.
Trimech Corporation, Pompton Plains, NJ 1984-2006

Background includes extensive technical training and experience in construction and engineering. Having already acquired a wealth of practical experience in the field of HVAC, was awarded his Bachelor of Science degree with honors in Mechanical Engineering by Newark College of Engineering (NJIT) in 1979. Authorized to practice as a Licensed Professional Engineer in New Jersey, New York and Pennsylvania. Responsible for overall engineering management at Trimech. Broad range of project engineering and design achievements has taken place principally in pharmaceutical and other industrial settings. Regarded as a particularly valuable resource by clients in the industrial sector.

PAST EXPERIENCE:

Project Engineer/Manager: Air Systems Division
Bonland Industries, Inc., Wayne, NJ 1981 – 1984

- Direct all engineering, design, installation and commissioning of Bonland's design and build mechanical division.
- Qualify, select and coordinate all subcontract activities including electrical and control areas.
- Consistently exceed profitability expectations while maintaining client satisfaction in critical pharmaceutical and industrial applications.
- Typical projects include: Channel 13 television tape library, high temperature foundry heat recovery, major flavor and fragrance laboratory facility, nitroglycerine manufacturing environmental and exhaust system, variable environment insect pheromone test laboratory and numerous 100% outside air precision temperature and humidity process systems.

Design Engineer

Town Engineering, Inc., Hackensack, NJ 1980 – 1981

- Executed complete conceptual and detailed designs of office buildings and shopping plazas.
- Generated accurate and competitive estimates for plan and specification type bid work.
- Developed extensive level of expertise in computer room air conditioning system.

Project Engineer

Hoffmann-LaRoche Inc., Nutley, NJ 1977 – 1980

- Assisted in supervision of major capital projects valued to 30 million dollars.
- In-depth design and management involvement in projects such as parenteral manufacturing facility, tablet coating system, solvent storage facility, chiller and cooling tower installations, sterile packaging and total enthalpy energy recovery systems.

Relevant Employment While Attending School: 1973 – 1978

- N. J. Cooling Company, Morristown, NJ – Lead HVAC Foreman
- Air Control Experts, Newark, NJ – HVAC Installer

Education and Professional Information

- Morris County Vo-Tech, HVAC Program, 1975
